

VulnKeeper - PURL & Adjacent Resource Map

All chapters: breachtrace.gitbook.io/vulnkeeper/index. A chapter-led compact index for package identity, affectedness, dependency metadata, SBOM, VEX, provenance & validation.

A	Identity	See breachtrace.gitbook.io/vulnkeeper/chapter-a
(a)	Canonical identity	nvd.nist.gov/products/cpe csrc.nist.gov/projects/software-identification-swid docs.softwareheritage.org/devel/sw-h-model/persistent-identifiers github.com/omnibor/omnibor github.com/opencontainers/image-spec/blob/main/descriptor .
D	Affectedness & Pkg Mapping	See breachtrace.gitbook.io/vulnkeeper/chapter-d
(a)	Affectedness & package mapping	osv.dev github.com/advisories public.vulnerablecode.io/packages/search/ docs.vulncheck.com/products/exploit-and-vulnerability-intelligence/package-manager-support security-tracker.debian.org/tracker/ ubuntu.com/security/cves access.redhat.com/security/security-updates/cve security.suse.com security.alpinelinux.org archlinux.org/security/ ossf.github.io/osv-schema/ github.com/CVEProject/cvelistV5 .
E	Supply Chain	See breachtrace.gitbook.io/vulnkeeper/chapter-e
(a)	PURL & versions	packageurl.org/docs/purl/purl-types packageurl.org/docs/vers/introduction .
(b)	Cross-ecosystem pkg & dependency metadata	deps.dev docs.deps.dev/api/v3/ packages.ecosyste.ms clearlydefined.io repology.org .
(c)	Pkg registries	npmjs.com pypi.org search.maven.org nuget.org/packages crates.io pkg.go.dev rubygems.org packagist.org hex.pm/packages hackage.haskell.org/packages conan.io/center cocoapods.org anaconda.org .
(d)	Linux pkg identity	packages.debian.org sources.debian.org snapshot.debian.org packages.ubuntu.com packages.fedoraproject.org src.fedoraproject.org packages.alpinelinux.org archlinux.org/packages/ .
(e)	Pagure-Fedora	pagure.io docs.pagure.org/pagure/ docs.pagure.org/rpkg-util/ .
(f)	SW Bill of Materials [SBOM]	cyclonedx.org/use-cases/software-dependencies/ spdx.dev/specifications/ docs.guac.sh docs.dependencytrack.org docs.github.com/en/rest/dependency-graph/sboms .
(g)	VEX & affectedness	openvex.dev csaf.io cyclonedx.org/capabilities/vex/ .

F	Supply Chain	See breachtrace.gitbook.io/vulnkeeper/chapter-e
(h)	Provenance	koji.fedoraproject.org/koji/ copr.fedorainfracloud.org bodhi.fedoraproject.org sigstore.dev slsa.dev in-toto.io rekor.sigstore.dev .
(i)	Container specs	opencontainers.org github.com/opencontainers/image-spec oras.land docs.docker.com/reference/api/registry/latest/ quay.io .
F	Pkg/SBOM Validation	See breachtrace.gitbook.io/vulnkeeper/chapter-f
(a)	Pkg discovery	oss.anchore.com/docs/guides/sbom/ github.com/anchore/syft trivy.dev/latest/docs/supply-chain/sbom/ github.com/tern-tools/tern .
(b)	PURL-aware CVE	oss.anchore.com/docs/guides/vulnerability/ github.com/anchore/grype google.github.io/osv-scanner/ dependency-check.github.io/DependencyCheck/ github.com/AppThreat/dep-scan .
(c)	SBOM validation	github.com/CycloneDX/cdxgen github.com/microsoft/sbom-tool github.com/kubernetes-sigs/bom github.com/CycloneDX/cyclonedx-cli github.com/interlynk-io/sbomqs .
(d)	Pkg metadata	scancode-toolkit.readthedocs.io oss-review-toolkit.org fossology.org .
(e)	Firmware & embedded-pkgs	github.com/onekey-sec/unblob github.com/ReFirmLabs/binwalk github.com/firmadyne/firmadyne .

Display URLs omit the scheme for compactness; each entry is clickable in the PDF.
